

# Department Event Titles — Pitch Guide

July 2026

## MR ROKESH TECHNOLOGY

### Department Event Titles — Pitch Guide

Seminar · Half Day · Full Day · 2-Day Bootcamp

Use this when pitching HOD / TPO. Each department has **4 event titles** by duration.

**Tagline (all events):** Learn → Build → Deploy → Get Hired

### Duration Guide

| Format         | Duration    | What You Deliver                             | Best Pitch To             |
|----------------|-------------|----------------------------------------------|---------------------------|
| Seminar        | 3 hours     | Expert talk + live demo + Q&A + registration | HOD (first contact)       |
| Half Day       | 4 hours     | Seminar + guided mini-lab + certificate      | HOD + lab coordinator     |
| Full Day       | 6–7 hours   | Hands-on workshop + student project start    | Department event / club   |
| 2-Day Bootcamp | 12–14 hours | Deep lab + mini capstone + portfolio piece   | Vacation / weekend / fest |

**Pricing anchor:** Seminar = FREE (lead gen) · Half Day = free/low · Full Day & Bootcamp = paid/sponsored

## 00 — All Departments (TPO / IQAC / All Branches)

| Duration | Event Title                                                               | One-Line Pitch                                                      |
|----------|---------------------------------------------------------------------------|---------------------------------------------------------------------|
| 3 Hours  | <b>Campus to Corporate: The 2026 Placement Roadmap</b>                    | Industry skills gap + how to get hired in any branch                |
| Half Day | <b>Job Ready in 2026: Portfolio, Resume &amp; Interview Masterclass</b>   | ATS resume + LinkedIn + mock interview framework                    |
| Full Day | <b>Placement Sprint Day: From Zero Portfolio to Interview-Ready</b>       | Build GitHub/portfolio + resume rewrite + mock HR round             |
| 2 Days   | <b>Career Launch Bootcamp: Projects, Profile &amp; Placement Strategy</b> | 2-day sprint: project selection + portfolio + 50-company apply plan |

**Also pitch:** Final-year project support · MoU for multi-department training · IQAC skill program

## 01 — Computer Science Engineering (CSE)

| Duration | Event Title                                                             | One-Line Pitch                                            |
|----------|-------------------------------------------------------------------------|-----------------------------------------------------------|
| 3 Hours  | <b>Full Stack to First Offer: Building Job-Ready Developers in 2026</b> | MERN overview + live deploy demo + placement path         |
| Half Day | <b>Code to Cloud: Build &amp; Deploy Your First Web App</b>             | HTML/CSS/JS + backend intro + live URL in 4 hours         |
| Full Day | <b>Full Stack Builder Workshop: MERN App in One Day</b>                 | Auth + CRUD API + React UI + GitHub deploy                |
| 2 Days   | <b>CSE Placement Bootcamp: Full Stack + DSA + GitHub Portfolio</b>      | Mini full-stack project + DSA patterns + portfolio README |

**Missed angles:** Open-source contribution intro · Hackathon judging · CSI/IEEE chapter tie-up

## 02 — Artificial Intelligence & Data Science (AI & DS)

| Duration | Event Title                                                | One-Line Pitch                                                  |
|----------|------------------------------------------------------------|-----------------------------------------------------------------|
| 3 Hours  | From Data to Decisions: AI & Data Science Careers Unlocked | Data analyst vs scientist vs ML engineer roles + live dashboard |
| Half Day | Data Storytelling Lab: Python + SQL + Visualization        | Clean dataset → charts → insights presentation                  |
| Full Day | Data Analytics Workshop: Excel to Python to Power BI       | End-to-end analytics project in one day                         |
| 2 Days   | AI & Data Science Bootcamp: ML Model + BI Dashboard        | Train classifier + Power BI dashboard + project report          |

**Missed angles:** Kaggle intro · GenAI for data analysts · Capstone dataset partnerships

## 03 — Information Technology (IT)

| Duration | Event Title                                                 | One-Line Pitch                                                   |
|----------|-------------------------------------------------------------|------------------------------------------------------------------|
| 3 Hours  | Enterprise IT Careers: Cloud, DevOps, ERP & Infrastructure  | AWS/Azure overview + DevOps pipeline demo + SAP/Salesforce paths |
| Half Day | Cloud Foundations Lab: Deploy & Manage Your First Server    | AWS EC2 + Linux basics + security group hands-on                 |
| Full Day | DevOps in a Day: Git, Docker, CI/CD Pipeline Build          | Containerize app + GitHub Actions + deploy                       |
| 2 Days   | IT Infrastructure Bootcamp: Cloud + Networking + Automation | Cloud lab + network troubleshooting + CI/CD capstone             |

**Missed angles:** IT helpdesk simulation · ServiceNow/ITSM intro · Hybrid cloud for colleges

## 04 — Electronics & Communication Engineering (ECE)

| Duration | Event Title                                                         | One-Line Pitch                                    |
|----------|---------------------------------------------------------------------|---------------------------------------------------|
| 3 Hours  | <b>Smart Devices to Smart Careers: ECE in the IoT Era</b>           | IoT architecture + live sensor demo + career map  |
| Half Day | <b>IoT Starter Lab: Sensors, MQTT &amp; Cloud Dashboard</b>         | Arduino/ESP32 + Blynk/MQTT + mobile dashboard     |
| Full Day | <b>Embedded &amp; IoT Workshop: Build a Smart Monitoring System</b> | Temperature/humidity node + cloud logging + alert |
| 2 Days   | <b>ECE Innovation Bootcamp: IoT + Embedded + Edge AI Intro</b>      | IoT project day 1 + embedded C + edge ML day 2    |

**Missed angles:** 5G/telecom careers · Antenna basics guest talk · IEEE student branch sponsorship

## 05 — Cyber Security

| Duration | Event Title                                                           | One-Line Pitch                                             |
|----------|-----------------------------------------------------------------------|------------------------------------------------------------|
| 3 Hours  | <b>Cyber Warfare to Cyber Careers: Ethical Hacking Unmasked</b>       | Threat landscape + controlled live demo + SOC career path  |
| Half Day | <b>Cyber Defense Lab: Network Scanning &amp; Vulnerability Basics</b> | Nmap + Wireshark + secure config (legal lab only)          |
| Full Day | <b>Ethical Hacking Workshop: Recon to Remediation</b>                 | OWASP Top 10 + DVWA lab + report writing                   |
| 2 Days   | <b>Cybersecurity Bootcamp: Pentest Basics + SOC Analyst Skills</b>    | Day 1 offensive basics · Day 2 blue team + forensics intro |

**Missed angles:** Cyber awareness for non-tech students · Faculty cyber hygiene FDP · CTF mini competition

## 06 — Artificial Intelligence & Machine Learning (AI & ML)

| Duration | Event Title                                                | One-Line Pitch                                       |
|----------|------------------------------------------------------------|------------------------------------------------------|
| 3 Hours  | Building AI That Works: From Models to Production          | ML pipeline + live inference demo + MLOps overview   |
| Half Day | Deep Learning Hands-On: Image Classification in 4 Hours    | CNN train + evaluate + deploy intro (Colab)          |
| Full Day | Computer Vision Workshop: Detect, Track & Deploy with YOLO | OpenCV + YOLO demo + real-time detection lab         |
| 2 Days   | AI & ML Bootcamp: NLP + Vision + AI Agent Intro            | Day 1 DL/NLP · Day 2 CV + LangChain agent mini build |

**Missed angles:** AI ethics seminar · Research paper to project bridge · GPU lab partnership pitch

## 07 — Electrical & Electronics Engineering (EEE)

| Duration | Event Title                                                    | One-Line Pitch                                     |
|----------|----------------------------------------------------------------|----------------------------------------------------|
| 3 Hours  | Powering the Future: EEE Careers in EV & Industrial Automation | EV ecosystem + PLC overview + MATLAB demo          |
| Half Day | PLC Programming Lab: Ladder Logic & HMI Simulation             | Siemens/Mitsubishi simulator + motor control logic |
| Full Day | Industrial Automation Workshop: PLC + SCADA + Sensors          | PLC program + HMI screen + sensor integration      |
| 2 Days   | EEE Power Bootcamp: EV Technology + PLC + MATLAB Simulation    | Day 1 EV motors/BMS · Day 2 PLC + Simulink project |

**Missed angles:** Solar/renewable careers · Electrical safety workshop · Smart grid intro

## 08 — Mechanical Engineering

| Duration | Event Title                                                              | One-Line Pitch                                      |
|----------|--------------------------------------------------------------------------|-----------------------------------------------------|
| 3 Hours  | <b>Design, Simulate, Manufacture: Mechanical Careers in Industry 4.0</b> | CAD + ANSYS + CNC career map + live SolidWorks demo |
| Half Day | <b>CAD Marathon: 3D Part &amp; Assembly Modeling in SolidWorks</b>       | Part → assembly → drawing sheet in 4 hours          |
| Full Day | <b>Mechanical Design Workshop: CAD + FEA Simulation Intro</b>            | SolidWorks/CATIA model + ANSYS static analysis      |
| 2 Days   | <b>Mechanical Engineering Bootcamp: CAD + ANSYS + CNC Toolpaths</b>      | Day 1 design + FEA · Day 2 CAM + manufacturing plan |

**Missed angles:** Design competition judging · Formula Student / Baja advisory talk · 3D printing workshop

## 09 — Mechatronics

| Duration | Event Title                                                        | One-Line Pitch                                   |
|----------|--------------------------------------------------------------------|--------------------------------------------------|
| 3 Hours  | <b>Robotics Meets Reality: Mechatronics in Smart Manufacturing</b> | ROS2 demo + PLC-robot integration + Industry 4.0 |
| Half Day | <b>Robot Builder Lab: Line-Following Bot in Half a Day</b>         | Arduino + sensors + motor control + track test   |
| Full Day | <b>Mechatronics Integration Workshop: Sense, Control, Automate</b> | Sensor fusion + actuator control + PLC bridge    |
| 2 Days   | <b>Smart Factory Bootcamp: Robotics + PLC + IoT Dashboard</b>      | Day 1 robot build · Day 2 PLC + cloud monitoring |

**Missed angles:** Autonomous vehicle club talk · Pneumatics/hydraulics intro · Industry 4.0 faculty FDP

## 10 — Civil Engineering

| Duration | Event Title                                                                | One-Line Pitch                                   |
|----------|----------------------------------------------------------------------------|--------------------------------------------------|
| 3 Hours  | <b>BIM &amp; Beyond: Civil Engineering in the Digital Construction Era</b> | AutoCAD + BIM + construction analytics overview  |
| Half Day | <b>AutoCAD Civil Lab: Plan, Section &amp; Elevation Drafting</b>           | Site plan + cross-section + detailing in 4 hours |
| Full Day | <b>Civil Design Workshop: AutoCAD + BIM Coordination Intro</b>             | 2D drafting + Revit/BIM basics + clash concept   |
| 2 Days   | <b>Civil Engineering Bootcamp: AutoCAD + BIM + Project Estimation</b>      | Day 1 drafting · Day 2 BIM + Excel/QS basics     |

**Missed angles:** GIS for civil intro · Green building / LEED awareness · Site visit + software link seminar

## 11 — Fashion Technology

| Duration | Event Title                                                                 | One-Line Pitch                                             |
|----------|-----------------------------------------------------------------------------|------------------------------------------------------------|
| 3 Hours  | <b>Digital Fashion Revolution: From Sketch to 3D Runway</b>                 | Digital illustration + CLO3D demo + fashion careers        |
| Half Day | <b>Fashion Illustration &amp; Mood Board Studio (Illustrator/Procreate)</b> | Mood board + 3 digital fashion figures + color story       |
| Full Day | <b>Fashion Tech Workshop: Flat Sketch, Tech Pack &amp; CLO3D Draping</b>    | Technical flats + spec sheet + virtual garment             |
| 2 Days   | <b>Fashion Designer Bootcamp: Collection Concept to Digital Portfolio</b>   | Day 1 illustration + print design · Day 2 CLO3D + lookbook |

**Missed angles:** Sustainable fashion seminar · Fashion brand Instagram masterclass · Textile testing lab visit tie-up

## Cross-Department Events (Pitch When Any HOD Says Yes)

| Duration | Event Title                                                                       | Target                                      |
|----------|-----------------------------------------------------------------------------------|---------------------------------------------|
| 3 Hours  | <b>Generative AI for Every Engineer: ChatGPT to Custom Workflows</b>              | All departments (2026 hot topic)            |
| 3 Hours  | <b>Prompt Engineering Masterclass: AI Tools for Academic &amp; Career Success</b> | All departments                             |
| Half Day | <b>Final Year Project Accelerator: Idea to Proposal in 4 Hours</b>                | All (Track 12 support)                      |
| Full Day | <b>Innovation &amp; Startup Day: Idea Validation + MVP + Pitch Deck</b>           | E-Cell / IIC / all branches                 |
| 2 Days   | <b>Industry 4.0 Immersion: IoT + AI + Automation for Engineers</b>                | ECE + Mech + Mechatronics + EEE joint event |

## Faculty / Institution Events (Often Missed)

| Duration | Event Title                                                                      | Pitch To               |
|----------|----------------------------------------------------------------------------------|------------------------|
| Half Day | <b>Faculty Development Program: Industry Tools for Outcome-Based Education</b>   | HOD + IQAC             |
| 3 Hours  | <b>NAAC / NBA Skill Integration: Mapping Industry Training to POs &amp; PSOs</b> | IQAC coordinator       |
| Full Day | <b>TPO Masterclass: Running a 90-Day Placement Drive on Campus</b>               | TPO + placement cell   |
| 2 Days   | <b>Train-the-Trainer: Equipping Faculty to Mentor Capstone Projects</b>          | All department faculty |

## Parent & Management Events (For Trust & Enrollment)

| Duration | Event Title                                                              | Pitch To               |
|----------|--------------------------------------------------------------------------|------------------------|
| 3 Hours  | <b>Parent Orientation: Engineering Careers &amp; Skill Paths in 2026</b> | Principal / management |
| 3 Hours  | <b>Industry Advisory Board Session: Skills Employers Want Now</b>        | Board of studies       |

## Quick Pitch Cheat Sheet (30 Seconds)

"We propose a **[3-Hour / Half-Day / Full-Day / 2-Day]** event titled '**[Title from table]**' for your **[Department]** students. It includes a live demo, certificates, and a pathway to our 2-week to 6-month placement programs. **Seminars are free** for the college — can we block **[date]**?"

## Email Subject Lines by Duration

| Duration | Subject Pattern                                        |
|----------|--------------------------------------------------------|
| 3 Hours  | Free 3-Hour Seminar Proposal: [Title] – [College Name] |
| Half Day | Half-Day Skill Lab Proposal: [Title] – [Dept] Students |
| Full Day | 1-Day Hands-on Workshop: [Title] – [College Name]      |
| 2 Days   | 2-Day Bootcamp Proposal: [Title] – [Dept] Department   |

## What to Bring per Format

| Format   | Demo                           | Handout                        | Outcome              |
|----------|--------------------------------|--------------------------------|----------------------|
| 3 hrs    | Live demo (15–20 min)          | Brochure                       | 15+ registrations    |
| Half day | Mini lab (every student tries) | Poster + brochure              | 25+ registrations    |
| Full day | Full project start             | Certificate + brochure         | 40+ registrations    |
| 2 days   | Capstone mini project          | Certificate + portfolio sample | 15+ paid enrollments |
