

# Brochure – Artificial Intelligence & Machine Learning

## MR ROKESH TECHNOLOGY

### College Partnership Brochure – Artificial Intelligence & Machine Learning

**Philosophy:** Learn – Build – Deploy – Get Hired

### Department

**Artificial Intelligence & Machine Learning** (06-AI-and-Machine-Learning)

### Flagship Event (Free for College)

| Item                   | Details                                                 |
|------------------------|---------------------------------------------------------|
| <b>Seminar Title</b>   | Building AI That Works: From Models to Production       |
| <b>Workshop Title</b>  | Train & Deploy an Image Classifier in One Day           |
| <b>Formats</b>         | Seminar                                                 |
| <b>Duration</b>        | Seminar: 3 hours – Workshop: 1 day – Bootcamp: 2–3 days |
| <b>Cost to College</b> | <b>FREE</b> (seminar) – Workshop/Bootcamp negotiable    |
| <b>Certificate</b>     | Participation certificate for all attendees             |

### What Students Gain

- AI, ML & Data Science
- Deep Learning & NLP
- AI Agent Development
- Computer Vision
- Prompt Engineering

### Training Programs (Post-Event)

| Program             | Duration | Outcome                               |
|---------------------|----------|---------------------------------------|
| <b>Skill Sprint</b> | 2 Weeks  | Awareness + mini project              |
| <b>Foundation</b>   | 1 Month  | 2 guided projects + portfolio start   |
| <b>Job Ready</b>    | 3 Months | Internship-ready + capstone           |
| <b>Professional</b> | 6 Months | Placement-focused full stack          |
| <b>Expert</b>       | 9 Months | Advanced portfolio + placement sprint |

**Relevant tracks:** 05, 43, 18, 26, 17

### Why Partner with MR ROKESH TECHNOLOGY?

- **53 industry-aligned tracks** across 12 academic departments

- Hands-on labs, capstone projects, and mentor-led batches
  - Placement support: resume, LinkedIn, mock interviews, portfolio reviews
  - NAAC / skill-development / IQAC-friendly programs
  - Flexible formats: on-campus, hybrid, or center-based
- 

## Next Steps

1. HOD / TPO confirms date and venue (auditorium or lab)
  2. MR ROKESH TECHNOLOGY provides poster + registration QR
  3. Free seminar delivered + student interest survey
  4. Optional paid bootcamp or batch enrollment for interested students
  5. MoU for long-term training partnership (optional)
-
