

Track 31: Salesforce

June 2026

Track 31: Salesforce

MR ROKESH TECHNOLOGY — Training & Internship Programs

Skill path: CRM Concepts → Salesforce Admin → Automation → Reports → Apex/LWC Intro → Integration

Related: [Track 16 — Data Analytics](#) | [Track 1 — Full Stack](#)

Track Overview

Who this is for: CRM administrators, business analysts, and developers entering the Salesforce ecosystem.

Prerequisites: Basic business process understanding; no coding for admin tiers.

Tools: Salesforce Trailhead, Developer Edition org, Flow Builder, Process Builder, SOQL, Apex (6-month+), Lightning Web Components (9-month).

Certification targets: Salesforce Administrator (6-month), Platform Developer I (9-month)

Outcomes by Duration

Duration	Hours	Job Readiness	Key Deliverables
2 Weeks	40–50	CRM/Salesforce awareness	Configured Sales Cloud demo org
1 Month	80–100	Junior admin basics	Automated lead management
3 Months	250–300	Admin internship-ready	Full CRM implementation capstone
6 Months	500–600	Certified Admin ready	Admin cert + portfolio project
9 Months	750–900	Developer track	Apex/LWC application capstone

2-Week Crash Course

Days	Topics	Deliverable
D1–2	CRM concepts, Salesforce architecture, navigation	Trailhead badges (5+)
D3–4	Objects, fields, page layouts, record types	Custom object setup
D5–6	Users, profiles, roles, sharing rules	Security model configured
D7–8	Reports, dashboards, list views	3 reports + 1 dashboard
D9–10	Flow automation intro	Lead assignment automation

1-Month Foundation

Week	Topics	Project
W1	Data model, relationships, validation rules	Custom app with 3 objects
W2	Flow Builder, email alerts, approvals	Approval process workflow
W3	Reports, dashboards, Einstein Analytics intro	Sales pipeline dashboard
W4	Data import, duplicate management	CRM rollout simulation

3-Month Job Ready

Month	Topics	Projects
M1	Advanced admin: flows, process automation	Service case automation
M2	Integration basics, REST API, connected apps	External system integration
M3	Full org design, capstone	Industry CRM implementation

Capstone: Sales + Service Cloud setup; 5+ automation flows; role hierarchy; executive dashboard.

6-Month Professional

Month	Topics	Projects
M1–M3	As 3-month track	—
M4	Advanced flows, Omni-Channel, CPQ intro	Service center setup
M5	Admin certification prep, mock exams	Practice exam score 75%+
M6	Capstone + cert	Admin certification + live project

9-Month Advanced (Developer Track)

Month	Topics	Projects
M7	Apex, triggers, SOQL, bulkification	Custom business logic
M8	Lightning Web Components (LWC)	Custom Lightning app
M9	Platform Developer I prep + capstone	Apex/LWC application capstone

Assessment Rubric

Component	Weight	Criteria
Weekly Quiz	20%	CRM, admin, automation concepts
Lab Completion	40%	Org configured correctly
Project	30%	Business fit, automation quality
Portfolio	10%	Trailhead profile, org screenshots

Appendix: Mentor Notes

Use free Developer Edition orgs. Trailhead assignments mandatory from Week 1. Admin track (6mo) vs Developer track (9mo) — clarify enrollment path early.
